STRATEGIC HIGHLIGHTS

Encomium 2020 works to uplift vulnerable communities and foster sustainable development in Uganda's rural areas. 2023 was our 5th year of existence and operations with incredible results; and as we surface expectations and frame strategic issues, our goals for the next five years serve as a roadmap, guiding our efforts and defining our success criteria.

Encomium 2020's strategic plan for the years 2024-2028 underscores our commitment to sustainable community development. By focusing on vital sectors and implementing tailored interventions, we aspire to empower communities, enhance well-being, and establish a foundation for sustainable growth. Through our dedicated efforts and collaboration with local stakeholders, we envision a future where holistic prosperity is attainable for all.

"Encomium 2020 employs a comprehensive approach that touches on fundamental aspects of human life - health, education, water and sanitation, agriculture, and overall living standards. These aren't mere categories; they are the cornerstones of holistic well-being. True progress can only be achieved when these pillars stand strong and are equally accessible to all members of our communities."

Rita Tuhairwe - Executive Director

Encomium 2020 is committed to solidifying the foundation of its interventions while investing in external promotion and visibility to enhance its reputation as a hub for creating universal opportunities that enable everyone to flourish and soar beyond limitations and bringing dreams to life.

FINANCIAL HIGHLIGHTS

Though not all future events or conditions can be predicted, Encomium 2020 presents no material uncertainties that cast significant doubt on the organization's ability to continue as a going concern.

Account Payables	1,000,000
	1,000,000
TOTAL CAPITAL AND LIABILITIES	5,933,750

Encomium 2020 garners support for its transformative efforts through multi-faceted fundraising approaches; our unwavering commitment to elevate lives, transform futures, and create a legacy of positive impact is achieved through targeted campaigns, thoughtful donor engagement, and a resolute dedication to measurable outcomes.

OPERATING HIGHLIGHTS

Encomium 2020 is tackling the pressing issue of water scarcity in rural primary schools within Ibanda district through rain water harvesting, while recognizing the importance of allowing pupils, aged between 5 and 12 years, to fully experience their childhood through play and learning, which are crucial for their overall development.

Our communities are continuously trained on financial literacy to harness their resilience against economic challenges, especially in the rapidly changing economic conditions where challenges for sustaining economic growth and reducing poverty in Uganda are accelerated by the rapid population growth, drought, and a less supportive external environment, as most households rely heavily on agriculture and are vulnerable to climate change and weather shocks.

We have continuously built effective collaborations for strategic partnerships that leverage shared resources, expertise, and networks to enhance our programs implementation and operational efficiency. We attribute our success to the active community participation and collaboration with relevant stakeholders and the incorporation of cross-cutting interventions into the organization's programs and activities to achieve a holistic and integrated approach to community development, allowing for synergies and the maximization of our overall impact on community well-being, resilience, and sustainable development.

LOOKING AHEAD

Encomium 2020's Strategic Advantage

Holistic Community Support: We believe in the incredible power of collective impact. We uplift entire communities to reach new heights of success as we go beyond supporting individuals to experience growth, resilience, and prosperity while planting the seeds of progress that blossom into thriving communities.

Empowerment through Choice: Our mission goes beyond giving handouts; we empower people to shape their own destinies, rather than imposing our ideologies for we firmly believe in enabling individuals to make their own choices in life. Through capacity building and motivation, we equip community members with the knowledge and skills to take charge of their development journey. By giving them the freedom to decide their path, we foster a sense of ownership and empowerment that leads to meaningful and lasting transformation.

Seeding Dreams into Reality: We don't just offer hope; we provide people with a tangible starting point for their dreams. Our intervention programs are comprehensive strategies that lay the foundation for long-term well-being. By ensuring access to basic needs like nutrition, clean water, and essential services, we give individuals the resources and support they need to turn their aspirations into reality. We are committed to sowing the seeds of hope and prosperity across communities, nurturing dreams, and facilitating the journey towards achieving them.
